

PAUL E. MCCARTHY, D.V.M.
Diplomate ACVS
Chief Medical Officer
Director of Surgery

“I became a veterinarian because I was drawn to the science of medicine and surgery, and the challenge presented by treating different species.”

DR. PAUL MCCARTHY is a board-certified veterinary surgeon specializing in both soft tissue and orthopedic surgical procedures. As a member of the American College of Veterinary Surgeons, Dr. McCarthy has been specifically trained to perform advanced surgery. Such training prepares the surgeon to treat patients experiencing extensive trauma from fractures, ligament injuries, wounds, cancer and other causes. As chief medical officer, Dr. McCarthy is responsible for maintaining a well-trained senior veterinary staff and providing continuous improvement in the quality of the medicine practiced. He also constantly evaluates the development of the hospital to identify ways to improve standards, encourage clinical advancement, and to maximize the education and training of doctors.

EDUCATION

Tufts University School of Veterinary Medicine, D.V.M., 1989
