

REBECCA L. REMILLARD, Ph.D., D.V.M.  
Diplomate ACVN  
Staff Veterinarian, Nutrition

*“Nutrition is an important part of the total care we provide at Angell, ensuring that our patients’ unique dietary and metabolic needs are met.”*

**DR. REBECCA REMILLARD** is a board-certified nutritionist who oversees the dietary and nutritional needs of hospitalized patients. Her work focuses on meeting the unique metabolic needs of patients with a wide variety of medical conditions through clinic appointments, case consultation and clinical research. As director of clinical research, she ensures that studies have sufficient structure and substance according to established scientific methods and proper oversight to provide significant advancements in the veterinary profession. She also directs the continuing education program, which provides seminar topics in veterinary medicine that keep the Angell staff and regional practitioners current within the profession.
